

Stella Olson, CEO of Stat Enterprises says that

“Medsoft’s management has established an excellent working environment. With their holistic approach and innovative ideas they keep the morale of their MT’s high and have introduced work ethics that augments great respect for one another.”

Overall, the operations and training of the medical transcriptionists for Medsoft is of the highest quality (A+). I foresee that Medsoft will be one of the leading medical transcription companies in India”.

OUR SERVICES

MedsoftUSA provides accurate, economical outsourcing services to American health care service industries & insurance companies using leading-edge technology and the Internet.

As an Application Service Provider, MedsoftUSA with its web-based approach to dictation and transcription allows MTSO's, Hospitals and med-size clinics to lower their service costs by at least 20%. The customer under our planed ASP model dictates, transcribes and accesses the reports in real time.

MedsoftUSA offers a viable economic and value-added proposition to health-care organizations that not only increases productivity but significantly decreases equipment and infrastructure costs and staffing requirements.

Our aim is to deliver immediate benefits and reimbursements to our customers and earn their satisfaction and commitment. We believe in achieving profitability by innovation, by availing the power of the Internet and by our commitment to produce good quality work by the help of our qualified full-time transcriptionists available around the clock.

Our goal is to lower healthcare costs to our clients by providing cost effective out-sourcing solutions, and by developing a long term rewarding business partnership with satisfied clients.
